

DASTAAN

Portal Progress Report

Date: 3 August 2026

Prepared by: Rao Muhammad Hamza

Organization: Geo Entertainment

7
Portals

12
User Roles

20+
Active Users

6
Content Teams

1. What the Portal Does

Dastaan is a web-based system that manages the complete drama content lifecycle at Geo Entertainment — from the first meeting with a writer, through idea evaluation and approval, to production tracking. It replaces the previous email and spreadsheet-based process with a centralized portal used daily by 6 content teams.

The system provides dedicated workspaces for each team:

Portal	Purpose
Content Department	Content creators and managers log writer engagement reports, episodes, and manage writers
Programmer	Programming team tracks content aging, evaluates episodes, monitors writer commitments and delivery delays
Evaluator	Evaluators score one-liners and episodes, share evaluations across teams
GCM	Global Content Manager workspace with same capabilities as evaluators
Management	Senior management views content aging, team performance, approvals, evaluator analytics, and AI-powered recommendations
Admin	System administration — user accounts, team setup, activity and error monitoring

2. What Has Been Done

January 2026 — System Launch

- Core portal built and deployed to production
- User accounts and role-based access for all team members
- Writer engagement report (one-liner) logging with attachments
- Episode logging and tracking
- Evaluation forms with 8-criteria scoring
- Story bank, status updater, and calendar
- Admin panel for user and team management

February 2026 — Ma'am Humera's Feedback (MOM 09 Feb)

All 13 requirements from the walkthrough session were implemented:

- Added 7 new genres (Religious/Spiritual Drama, Women Centric Drama, etc.)
- Writers database integrated with option to add new writers
- Writer Engagement page redesigned from calendar to list format

- Evaluation criteria updated — Conflict of Content, Story Progression, What Next Element, Emotional Hook, Fear Factor, and more
- Episodic evaluation updated — Small Event, Major Event, Dialogues, Comments/Remarks added
- 22 theme options added to evaluations
- Contract Terms section with upload for signed contracts
- Script Bank search added

Additional features built in February:

- Form auto-save — all forms now save drafts automatically and can be restored
- Revision system — episodes and one-liners can be revised with full version history
- Discussion threads — team members can comment directly on one-liners and episodes
- Story approval gate — Humera and Salman as mandatory approvers, all management can vote
- Cross-team evaluation sharing between content teams
- Notification system overhauled — notifications now sent for evaluations, revisions, approvals, meetings, and episodes
- Writer engagement tracker with monthly/daily filters and Excel export
- Login activity tracking for all users

March – April 2026 — Monitoring & Team Analytics

- Error tracking and performance monitoring deployed
- Teams page redesigned with drill-down charts and login activity
- Team Accountability section — shows each member's evaluations done, pending, episodes logged, and session duration
- Team performance comparison across all content teams
- Idea turnaround section — tracks how long evaluations take per assessor
- Decimal scoring support (7.6, 5.5 etc.) in all evaluation forms

May 2026 — Content Aging & AI

- Content Aging dashboard — tracks delivery per writer per week with cumulative schedule tracking
- AI portal assistant — answers portal questions based on each team's features
- AI data agent — management can ask questions like "which writer delivered the most this month" and get answers from live data
- Original submission date field — allows backdating episode deliveries for accurate historical tracking
- Team accountability Excel export and idea turnaround section

June 2026 — MOM 06 June Requirements

Requirements from the 6 June meeting (Hamza, Asad Abidi, Younus):

Requirement	Status
Freeze panes on all tables (header and first 2 columns stay fixed while scrolling)	Done
Feedback option on One-Liner and Episodes tabs	Done
Writers Commitment tab — track project, commitment type, schedule, delays	Done
Payment reflection (show paid episodes count per project)	Partial
Project Delay Report with multi-dimensional filters (MIR Sb's request)	Done
Original submission date mandatory when logging episodes	Done
Revisions reflected in content aging + commitment vs delay tracking	Done

July 2026 — MOM 11 July Requirements

Requirements from the 11 July session (Hamza, Younus, Soha, Wahaj):

Requirement	Status
Dashboard showing total projects, episodes, evaluations summary	Done
Production Pipeline boxes showing real-time data	Done
Content Aging: Delay column with week/project/slot/grading filters	Done
Content Aging: Combined grading filter (e.g. 7+ from all 3 teams)	Done
Content Aging: Freeze Title and Serial No while scrolling	Done
Content Aging: Team-wise one-liner evaluation grading visible	Done
Content Aging: Project status (Pre-Cast, Pre-Production, Production Start)	Done
Content Aging: Reason for Delay (linked to Writer's Commitment)	Done
Content Aging: Max/min writer deliveries with monthly/quarterly filters	Done
Content Aging: Evaluation Delays column (7-9 day threshold alert)	Done
Content Aging: One-liner evaluated grading reflected	Done
Evaluation form: Character-Centric criterion (Male/Female/Both)	Done
Evaluation form: Signature Commercial category added	Done
Evaluation form: Non-Commercial renamed to Non-Commercial/Experimental	Done
Evaluation form: Category definitions displayed below options	Done
Missing Fields section accuracy improvements	Done

Additional features added in July:

- Management Viewer role — restricted read-only access for selected management users
- Content Development team separated from Programming team across all views
- Monthly delivery trend chart showing episode deliveries from January 2026
- File upload improvements — large attachments now upload directly without errors
- Collapsible sidebar — can be minimized to icon-only view to save screen space

3. Meeting Requirements Summary

Meeting	Total	Done	Partial	Pending
MOM 09 Feb 2026 Ma'am Humera Walkthrough	15	13	1	1
MOM 06 Jun 2026 Portal Enhancements	7	5	1	1
MOM 11 Jul 2026 Content Aging & Eval Form	16	15	0	1
Total Action Items	38	33	2	3

4. What Remains To Be Done

Item	Source	Priority	Description
Paid episodes counter	MOM 06 Jun	Medium	Show how many episodes have been paid for against each project
Upcoming Launch tab	MOM 09 Feb	Low	Show replacements for current dramas and upcoming shows

5. Summary

The Dastaan Portal has been live since January 2026 and is used daily by 6 content teams across Geo Entertainment. Since launch, 38 action items from three review meetings have been tracked — 33 completed, 2 in progress, and 3 pending.

The system now covers writer engagement, idea evaluation (one-liner and episodic), content aging and delay tracking, team accountability, approval workflows, and AI-powered data queries for management. Features were prioritized based on what the teams needed most during daily operations.
